# 2019 Mystery Quilt Challenge - February <br> Irving Quilt Guild by Susan Turk 

Unit 3 (label and put in ziplock bag)
Instructions given for Lap Size. Twin Size will be in parenthesis.

## Summary:

Make 24 (48) number of 4 patches using fabric 4 \& 5 unfinished size should be $4 \frac{1 ⁄ 2 " ~}{} \times 41 /{ }^{\prime \prime}$

## Detail Instructions:

Select the size of your quilt and if you are using Fat Qtrs (FQ) or Yardage (do not do both FQ and Yardage)
Cutting Instructions:

| Fabric | Lap Size |  | Twin Size |  |
| :--- | :--- | :--- | :--- | :--- |
|  | Fat Qtrs (22") | Yardage (42") | Fat Qtrs (22") | Yardage (42") |
| Fabric 5 | Cut 6-2 $1 / 2^{\prime \prime}$ Width of FQ | Cut 3-2 $1 / 2^{\prime \prime}$ WOF | Cut $12-21 / 2^{\prime \prime}$ Width of FQ | Cut 6-2 $1 / 2^{\prime \prime}$ WOF |
| Fabric 4 | Cut 6-2 $1 / 2^{\prime \prime}$ Width of FQ | Cut 3-2 $1 / 2^{\prime \prime}$ WOF | Cut $12-21 / 2^{\prime \prime}$ Width of FQ | Cut 6-2 $1 / 2^{\prime \prime}$ WOF |

- Sew each strip of Fabric 5 with each strip of Fabric 4 strip lengthwise for all strip sets.
- Press seam allowance towards Fabric 4 (away from light fabric).

- Sub cut these strip sets in $2 \frac{1}{2 \prime \prime}$ segments. Each segment should measure $21 / 2^{\prime \prime} \times 41 / 2^{\prime \prime}$.
- Arrange two segments, one flipped around so that like colors are diagonal from each other. Sew together, butting seams for a perfect match.

- Press seam allowance either way. The resulting four patch unit should measure $41 / 2^{\prime \prime} \times 41 / 2^{\prime \prime}$. You can reduce bulk by fanning out seam allowance when you press four patches.

Tip: After sewing all the Fabric 5 s with Fabric 4 s on the long edge and pressing, you can put two long units right sides together where Fabric 5 faces Fabric 4 and then sub cut the 2 units together. The pair pieces will be ready to sew to make 4 patches
